

Pattern for Drawstring Bags - "Bolsitas"

We give women their medicines, soap, toiletries, etc. in these bags, which are reusable and don't pollute like the plastic bags which are strewn all over the countryside.....

Use any type of easily washable material. Can make in a variety of sizes.

Start with rectangular length of cloth - sew a  $\frac{3}{8}$ " seam along all edges. Hem the short ends  $\frac{3}{4}$ -1"

Fold cloth inside out, and stitch edges together, leaving openings for drawstring. Turn right side out, and thread drawstring through openings.

For drawstrings, use cording, heavy yarn, ribbon, or similar material.
